

Total Power Competition 2009 (144MHz FM mode) Entry Form

We will display this entry forms  
at Tokyo Ham Fair 2009.

SAMPLE

		6	5
--	--	---	---

km/Total Power Watt  
is achieved by

J	L	1	K	R	A
---	---	---	---	---	---

Athlete Name JUNICHI NAKAJIMA

Date and Time 00 / JUL /2009 12 :34

my QTH Yokohama-city

Station Worked 8J1VLP/1

his QTH Mt.Tsukuba

RS report His 55 My 41

Distance 93.7 km

Transceiver

ALINCO DJ-C7

3.7 V 305 mA on TX, 3.7 V 84 mA on RX, TPW- handicap 0.69

Antenna

1/4 mobile whip

TPW handicap is an inverse of  
TPW.  $93.7 \times 0.69 = 65 \text{ km/TPW}$

Detail of TP challenge (in English if possible, photo and figure, photos are welcome)

*Though good TPW was expected by the QRP DJ-C7, measured power consumption was more than its catalog specification. At least I would like to achieve 100km/TPW. A Yagi beam and good location will be my next challenges.*

Please attach image of your  
transceiver antenna and  
QRP operation scene.

You can attach additional pages to describe additional detail.
